| Sommario/riassunto   | In 1991 the Newfoundland inshore cod fishery virtually collapsed. This book looks at the reasons for the collapse.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
