	Soggetti	Corpora (Linguistics) Linguistic analysis (Linguistics) Electronic books.
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	Description based upon print version of record.
	Nota di bibliografia	Includes bibliographical references.
	Nota di contenuto	Preliminary material / Editors Corpus Linguistics -- Introduction. Corpus Linguistics: Refinements and Reassessments / Antoinette Renouf and Andrew Kehoe -- Corpus linguistics meets sociolinguistics: the role of corpus evidence in the study of sociolinguistic variation and change / Christian Mair -- Creating corpora from spoken legacy materials: variation and change meet corpus linguistics / Joan C. Beal -- Discourse linguistics meets corpus linguistics: theoretical and methodological issues in the troubled relationship / Tuija Virtanen -- 'Tis well known to barbers and laundresses: Overt references to knowledge in English medical writing from the Middle Ages to the Present Day / Turo Hiltunen and Jukka Tyrkkö -- Comparing type counts: The case of women, men and -ity in early English letters / Tanja Säily and Jukka Suomela -- Does English have modal particles? / Karin Aijmer -- A reassessment of the syntactic classification of pragmatic expressions: the positions of you know and I think with special attention to you know as a marker of metalinguistic awareness / Julie Van Bogaert -- The functions of expletive interjections in spoken

English / Magnus Ljung -- Change and constancy in linguistic change: How grammatical usage in written English evolved in the period 1931-1991 / Geoffrey Leech and Nicholas Smith -- Joseph Wright's 'English Dialect Dictionary' in electronic form: A critical discussion of selected lexicographic parameters and query options / Alexander Onysko , Manfred Markus and Reinhard Heuberger -- How representative are the 'Philosophical Transactions of the Royal Society' of 17th-century scientific writing? / Lilo Moessner -- A multi-dimensional analysis of a learner corpus / Bertus van Rooy and Lize Terblanche -- Weaving web data into a diachronic corpus patchwork / Andrew Kehoe and Matt Gee -- "To each reader his, their or her pronoun". Prescribed, proscribed and disregarded uses of generic pronouns in English / Elisabetta Adami -- The interpersonal function of going to in written American English / Anna Belladelli -- Re-analysing the semi-modal ought to: an investigation of its use in the LOB, FLOB, Brown and Frown corpora / Marta Degani -- On the use of split infinitives in English / Javier Calle-Martín and Antonio Miranda-García -- Exploring change in the system of English predicate complementation, with evidence from corpora of recent English / Juhani Rudanko -- Encoding of goal-directed motion vs resultative aspect in the COME + infinitive construction / Sara Gesuato -- A corpus-based analysis of invariant tags in five varieties of English / Georgie Columbus -- Discourse presentation in EFL textbooks: a BNC-based study / Christoph Rühlemann -- Awful adjectives: a type of semantic change in present-day corpora / Göran Kjellmer -- Global English – Global Corpora: Report on a panel discussion at the 28th ICAME conference / Marianne Hundt.

| Sommario/riassunto | Throughout history, linguists and literary scholars have been impelled by curiosity about particular linguistic or literary phenomena to seek to observe them in action in original texts. The fruits of each earlier enquiry in turn nourish the desire to continue to acquire knowledge, through further observation of newer linguistic facts. As time goes by, the corpus linguist operates increasingly in the awareness of what has gone before. Corpus Linguistics, thirty years on, is less an innocent sortie into corpus territory on the basis of a hunch than an informed, critical reassessment of existing analytical orthodoxy, in the light of new data coming on stream. This volume comprises twenty-two articles penned by members of the ICAME (International Computer Archive of Modern and Mediaeval English) association, which together provide a critical and informed reappraisal of the facts, data, methods and tools of Corpus Linguistics which are available today. Authors reconsider the boundaries of the discipline, exploring its areas of commonality with Sociolinguistics, Language Variation, Discourse Linguistics, and Lexical Statistics and showing how that commonality is potentially of immense benefit to practitioners in the fields concerned. The volume culminates in the report of a timely and novel expert panel discussion on the role of Corpus Linguistics in the study of English as a global language. This encompasses issues such as English as an international lingua franca, 'norms' for global English, and the question of 'ownership', or who qualifies as a native speaker. |
