Donald R. Lehmann -- The effect of negative word-of-mouth in social networks / Andre Bonfrer.

Sommario/riassunto

In today's connected consumer environment, customers are better informed and harder to please, but they also leave a more visible evidence trail in the form of improved databases and customer information. Consumers are increasingly interconnected through various sorts of social networks, a trend that is facilitated by recent advances in electronic media and telecommunication (i.e., MySpace, Facebook, Twitter and Cyworld). Consumers are also increasingly connected with brands and seek to play a more participative role in their relationship with companies, stimulating companies to reconsider
