3. Record Nr.	UNINA9910874683903321
Autore	Hamdan Reem Khamis
Titolo	Artificial Intelligence (AI) and Customer Social Responsibility (CSR) // edited by Reem Khamis Hamdan, Amina Buallay
Pubbl/distr/stampa	Cham : , : Springer Nature Switzerland : , : Imprint : Springer, , 2024
ISBN	9783031509391
Edizione	[1st ed. 2024.]
Descrizione fisica	1 online resource (1093 pages)
Collana	Studies in Systems, Decision and Control, , 2198-4190 ; ; 517
Altri autori (Persone)	BuallayAmina
Disciplina	620
Soggetti	Engineering mathematics Engineering - Data processing Artificial intelligence Computational intelligence Mathematical and Computational Engineering Applications Artificial Intelligence Computational Intelligence
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Intro -- Preface -- Contents -- AI, Decision-Making and Participatory Rights, Public Engagement -- Violations of Community Participatory Rights: Testing the Ladder of Public Participation Model on the Road Development Program in Indonesia -- 1 Introduction -- 2 Literature Review/Study Site -- 2.1 Community Participation -- 2.2 Road Construction -- 3 Participation of the Community in Road Construction -- 4 Materials and Methods/Methodology -- 5 Results -- 5.1 The Disparity between Community Leaders' Positions and the Authorities Who Make Development Policies -- 5.2 Local Community Leaders Are Not Involved. The Budget Can Be Used Illegally -- 5.3 Community Leaders Are Not Involved, Allowing Development to Be Aimed at Specific Places and Interests -- 5.4 Development Is Not Based on People's Participatory Rights in a Democratic Country -- 6 Analysis -- 6.1 Alleviation of Community Participation Rights and Human Rights Violations -- 6.2 The Ladder of Public Participation Model and Practice of Community Participation for Road Construction in Indonesia -- 6.3 Manipulation and Therapy -- 6.4 Informing, Consultation,

and Placation -- 6.5 Partnership, Delegated Power, and Citizen Control -- 7 Conclusion -- 8 Ethical Approval -- 9 Grant Information/Funding -- References -- Does Participation in Decision-Making Empower Local People? Understanding Empowerment Through Hannah Arendt's Theory of Power -- 1 Introduction -- 2 Public Participation in Decision-Making -- 3 Arendt's Theory of Power -- 4 The Sustainable Village Programme or Program Desa Lestari in Malaysia -- 5 Methods -- 6 Findings and Discussion -- 6.1 Limited Deliberation and Dialogue -- 6.2 Disempowerment of Collective Decisions -- 6.3 The Failure of the Establishment of the Co-Operative -- 7 Conclusion -- 8 Disclosure Statement -- 9 Notes on Contributors -- 10 Funding Details.

11 Ethical Approval -- References -- Visualizing Progress: The Role of Instagram in Communicating Development Initiatives for Poverty Alleviation in Indonesian Provinces -- 1 Introduction -- 2 Literature Review -- 3 Methodology -- 4 Findings and Discussion -- 5 Conclusion and Future Work -- References -- Integrated Land and Marine Spatial Information Sharing for Sustainable Coastal Management Growth in Malaysia: A Review -- 1 Introduction -- 2 Integrated Land-Marine Spatial Information System -- 3 Integrated Land-Marine Spatial Information Sharing -- 4 Concepts of Land-Marine Integrated Spatial Information Sharing -- 5 Aspects of Land-Marine Integrated Spatial Information Sharing -- 6 Conclusion -- References -- Impact of the Amethyst Module Implemented on the Micro-Enterprises Program: Disabilities Entrepreneur Group in Kelantan -- 1 Introduction -- 1.1 Background of Studies -- 2 Literature Review -- 2.1 People with Disabilities (OKU) on Micro-Enterprises in Kelantan -- 2.2 Previous Studies on the Aspect of People with Disabilities (OKU) -- 3 Methodology -- 4 Findings and Discussion -- 4.1 Findings -- 5 Conclusion -- References -- Hyper-Personalization, Co-creation, Digital Clienteling, and Transformation in Malaysia -- 1 Introduction -- 1.1 Research Questions -- 1.2 Research Objectives -- 2 Literature Reviews -- 2.1 Customer Innovativeness and Customer Involvement -- 2.2 Customer Involvement and Willingness to Co-create -- 2.3 Customer Innovativeness and Willingness to Co-create -- 2.4 Willingness to Co-create and Adoption -- 2.5 Attitude and Adoption -- 2.6 Customer Involvement and Attitude -- 2.7 Subjective Norms and Adoption -- 2.8 Customer Involvement and Subjective Norms -- 3 Methodology -- 3.1 Research Design and Sampling -- 3.2 Research Instrument Development -- 3.3 Data Analysis -- 4 Findings and Result -- 4.1 Demographic Analysis.

4.2 Descriptive Analysis -- 4.3 Reliability Test -- 4.4 Normality Analysis -- 4.5 Hypotheses Testing -- 4.6 Customer Involvement and Subjective Norms -- 5 Conclusion -- References -- Do Economic Development, Credit, Globalization and Human Capital Reduce Poverty in India? Econometric Evidence from Quantile Regression Approach -- 1 Introduction -- 2 Literature Review -- 3 Data, Methods and Estimation Procedure -- 4 Results and Discussion -- 5 Conclusion and Policy Implications -- Appendix -- References -- Retirement Financial Planning: Strategies and Challenges in Avoiding the Incidence of Poverty -- 1 Introduction -- 1.1 Problems Statement -- 2 Literature Review -- 3 Methodology -- 4 Findings and Discussion -- 4.1 Challenges -- 4.2 Strategies -- 5 Conclusion -- References -- The Impact of Religious Struggle on Muslim's Life Satisfaction Who Perform Hijrah: Religious Transformation as a Mediator -- 1 Introduction -- 2 Methods -- 3 Results and Discussion -- 3.1 Description of Research Data -- 3.2 Partial Least Square Analysis -- 3.3 Discussion -- References -- Effectiveness of Respiratory Relaxation to Lower

Academic Communication Apprehension in Students -- 1 Background
 -- 2 Communication Apprehension -- 3 Respiratory Relaxation -- 4
 Method -- 5 Result -- 6 Discussion -- 7 Conclusion -- References --
 Empowering Sustainable Livelihoods: The Ayady Social Kafalah Platform
 as a Solution to Socioeconomic Challenges -- 1 Introduction -- 2
 Literature Review -- 3 Empowering Through Opportunity: The Step-By-
 Step Operation of the Ayady Social Kafalah Platform -- 4 Key
 Implementation Considerations and Challenges -- 4.1 Targeted
 Outreach and Inclusivity -- 4.2 Opportunity Matching and Skill
 Alignment -- 4.3 Mentorship and Support -- 4.4 Transparency
 and Accountability -- 4.5 Reciprocity and Sustainability -- 4.6 Ethical
 and Cultural Sensitivity.
 4.7 Scalability and Technological Infrastructure -- 4.8 Monitoring
 and Evaluation -- 5 Conclusion -- References -- Customer
 Relationship Management Effect on Loyalty: A Study of Switching Cost
 Role as Mediator -- 1 Introduction -- 2 Literature Review
 and Hypothesis -- 2.1 Loyalty -- 2.2 Customer Relationship
 Management -- 2.3 Switching Cost -- 3 Methodology -- 3.1
 Population, Sample and Analysis Unit -- 3.2 Method of Collecting Data
 -- 3.3 Variable Measurement -- 3.4 Validity and Reliability Test

A Review Factors Contributing to Energy Poverty.

Sommario/riassunto

The impact of artificial intelligence (AI) on business and society has been significant, with the incorporation of AI technologies such as robots, facial recognition, algorithms, and natural language processing into business leading to both corporate benefits and potential challenges for stakeholders. The question of how to engage in responsible business practices in the era of AI is an important one, and there is a need for more research on the relationship between AI and corporate social responsibility (CSR). As AI becomes more prevalent, there is a growing focus on the ethical implications of AI and the potential for AI to perpetuate biases or to displace human workers. CSR initiatives can include considerations of ethical AI in the development and use of AI systems. AI has the potential to solve many global challenges and improve people's lives, but it can also have negative consequences if not developed and used responsibly. CSR initiatives can focus on the social impact of AI, including efforts to ensure that the benefits of AI are distributed fairly and that AI is used for the common good. CSR initiatives often involve engaging with stakeholders, including employees, customers, and communities, to understand their needs and concerns and to ensure that their interests are taken into account. This can include engaging with stakeholders about the use of AI in the organization and its potential impacts. The adoption of AI in business is changing many aspects of doing business in a socially responsible manner, and there is a need to examine the potential unethical behaviors and novel ways of engaging in CSR that may arise. This book aims to focus on AI and CSR, and to advance our understanding of the role of AI in organizations and the literature on CSR by assembling high-quality papers with a strong connection between theory and practice.
