<b>Nota di bibliografia</b>	Includes bibliographical references (p. 241) and index.
<b>Nota di contenuto</b>	Abnormalities of globe size and position -- Eyelid abnormalities -- Third eyelid abnormalities -- Ocular discharge -- The painful eye -- The red eye -- The opaque eye -- Corneal opacities -- Iris abnormalities -- The abnormal pupil -- The blind eye -- Ocular trauma.
<b>Sommario/riassunto</b>	Small Animal Ophthalmology: What's Your Diagnosis? is one of the first books in an exciting new series that combines problem-based learning, case studies, and questions and answers. Designed specifically for veterinarians and students, the series aims to present material in a format to enhance critical thinking and understanding. Adopting a case-based approach, chapters are built around common ophthalmic presentations and are directed by questions to test the reader's ability to interpret clinical history, ophthalmic photographs and diagnostic results in order to provide differential
