Sommario/riassunto

This book presents an up-to-date account of current English-language English teaching and General Studies practices in the UAE. The chapters, written by leading language teacher educators, feature theoretical and empirical aspects of teaching, learning, assessment as well as related research. Throughout the book, the link between theory and practice is highlighted and exemplified. This reader-friendly book is suitable for undergraduate and graduate students, teachers, researchers and administrators of English language and general studies programs in the UAE and beyond who wish to keep abreast of recent developments in the field.
