

1. Record Nr.	UNINA9910464298203321
Autore	Winiarczyk Marek
Titolo	The "Sacred history" of Euhemerus of Messene [[electronic resource] /] / Marek Winiarczyk ; translated from Polish by Witold Zbirohowski-Koscia
Pubbl/distr/stampa	Berlin, : De Gruyter, 2013
ISBN	3-11-029488-5
Descrizione fisica	1 online resource (296 p.)
Collana	Beiträge zur Altertumskunde ; ; 312
Altri autori (Persone)	Zbirohowski-KosciaWitold
Disciplina	883/.01
Soggetti	Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	Front matter -- Preface -- Contents -- Abbreviations -- I. The life of Euhemerus -- II. Euhemerus' -- III. The theological views of Euhemerus of Messene -- IV. Society and economy in the -- V. The Zeus Sanctuary on the Island of Panchaea -- VI. An attempt to interpret the -- VII. Ennius' Euhemerus sive sacra historia -- VIII. Euhemerism in the ancient world -- IX. Conclusions -- Appendix I: Homines pro diis culti -- Appendix II: Deos homines fuisse -- Appendix III: The tombs of the gods -- Bibliography -- Indexes
Sommario/riassunto	In his utopian novel <i>Hiera Anagraphe</i> (Sacred History) Euhemerus of Messene (ca. 300 B.C.) describes his travel to the island Panchaia in the Indian Ocean where he discovered an inscribed stele in the temple of Zeus Triphylus. It turned out that the Olympian gods (Uranos, Kronos, Zeus) were deified kings. The travels of Zeus allowed to describe peoples and places all over the world. Winiarczyk investigates the sources of the theological views of Euhemerus. He proves that Euhemerus' religious views were rooted in old Greek tradition (the worship of heroes, gods as founders of their own cult, tombs of gods, euergetism, rationalistic interpretation of myths, the explanations of the origin of religion by the sophists, the ruler cult). The description of the Panchaian society is intended to suggest an archaic and closed culture, in which the stele recording <i>res gestae</i> of the deified kings might have been preserved. The translation of Ennius' <i>Euhemerus sive Sacra historia</i> (ca. 200 - ca. 194) is a free prose rendering, which

Lactantius knew only indirectly. The book is concluded by a short history of Euhemerism in the pagan, Christian and Jewish literature.

2. Record Nr.	UNISALENTO991002954139707536
Autore	Alonso-Gutiérrez, David
Titolo	Approaching the Kannan-Lovász-Simonovits and variance conjectures / David Alonso-Gutiérrez, Jesús Bastero
Pubbl/distr/stampa	Cham : Springer, 2015
ISBN	9783319132624
Descrizione fisica	x, 148 p. ; 24 cm
Collana	Lecture notes in mathematics, 0075-8434 ; 2131
Classificazione	AMS 46-02 AMS 28A AMS 46B25 AMS 52A22 AMS 60D05
Altri autori (Persone)	Bastero, Jesúsauthor
Disciplina	515.1
Soggetti	Functional analysis Geometric analysis
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index
Nota di contenuto	The conjectures ; Main examples ; Relating the conjectures ; Appendix ; Index
Sommario/riassunto	Focusing on two central conjectures from the field of Asymptotic Geometric Analysis, the Kannan-Lovász-Simonovits spectral gap conjecture and the variance conjecture, these Lecture Notes present the theory in an accessible way, so that interested readers, even those who are not experts in the field, will be able to appreciate the topics treated. Employing a style suitable for professionals with little background in analysis, geometry or probability, the work goes directly to the connection between isoperimetric-type inequalities and functional inequalities, allowing readers to quickly access the core of these conjectures. In addition, four recent and important results concerning this theory are presented. The first two are theorems attributed to Eldan-Klartag and Ball-Nguyen, which relate the variance and the KLS

conjectures, respectively, to the hyperplane conjecture. The remaining two present in detail the main ideas needed to prove the best known estimate for the thin-shell width given by Guédon-Milman, and an approach to Eldan's work on the connection between the thin-shell width and the KLS conjecture

3. Record Nr.	UNISA996204720303316
Titolo	Nation's restaurant news : the weekly newspaper of the food service industry
Pubbl/distr/stampa	[New York, N.Y.], : Lebhar-Friedman, 1967-
Descrizione fisica	1 online resource
Disciplina	642
Soggetti	Restaurants - United States Restaurants Periodicals. United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Periodico
Note generali	Title from caption. Subtitle varies.
