Sommario/riassunto	Rudyard Kipling (1865-1936) is among the most popular, acclaimed and controversial of writers in English. His books have sold in great numbers, and he remains the youngest writer to have won the Nobel Prize in Literature. Many associate Kipling with poems such as 'If-', his novel Kim, his pioneering use of the short story form and such works for children as the Just So Stories. For others, though, Kipling is the very symbol of the British Empire and a belligerent approach to other peoples and races. This Companion explores Kipling's main themes and texts, the different genres in which he worked and the various phases of his career. It also examines the 'afterlives' of his texts in postcolonial

writing and through adaptations of his work. With a chronology and guide to further reading, this book serves as a useful introduction for students of literature and of Empire and its after effects.
