The Renomination -- IX. The Campaign of 1864
Sommario/riassunto	Abram J. Dittenhoefer was a young South Carolinian who embraced abolition and moved to New York in order to work for the newly formed Republican party and its antislavery platform. Even though he was in his early twenties, he quickly established himself as a savvy and creative campaigner, and when he encountered Abraham Lincoln in New York City on February 27, 1860, a mutual friendship and trust were established. Soon, Dittenhoefer became a member of Lincoln's political circle, and he helped direct both of Lincoln's successful bids for the presidency. In <i>How We Elected Lincoln</i> , originally published in 1916 and appearing now for the first time in paperback, we have the only firsthand account of Lincoln's political campaigns. Here Lincoln emerges as a real human being, full of doubts and convictions, while

the usual dry-as-dust recitation of political facts is transformed into heated, vivid, nail-biting episodes. Lincoln was an underdog in both of his elections, and Dittenhoefer conveys the extreme tension and acrimony of each campaign. Drama surrounds this wartime president who faced a grueling reelection campaign at the same moment he was grappling with the darkest moments for his Union cause. Faced with competition within his own party, Lincoln resigned himself to defeat but continued to make astute decisions. The sudden success of Ulysses S. Grant on the battlefield in the autumn of 1864 turned the tide for both the Union Army and Lincoln's fortunes with the electorate. According to Dittenhoefer, Lincoln's greatest legacy was the eradication of American slavery, and in this compact account the author shows from direct experience the difficulties and resistance Lincoln encountered while working to achieve his goal.

## Sommario/riassunto

David Hackett Fischer, one of our most prominent historians, has garnered a reputation for making history come alive--even stories as familiar as Paul Revere's ride, or as complicated as the assimilation of British culture in North America. Now, in *The Great Wave*, Fischer has done it again, marshaling an astonishing array of historical facts in lucid and compelling prose to outline a history of prices--"the history of change," as Fischer puts it--covering the dazzling sweep of Western history from the medieval glory of Chartres to the modern day. Going far beyond the economic data, Fischer w
