

1. Record Nr.	UNISALENTO991003208939707536
Autore	Vermaseren, Maarten Jozef
Titolo	Musea et collectiones privatae / M. J. Vermaseren
Pubbl/distr/stampa	Leiden : Brill, 1977
ISBN	9004054545
Descrizione fisica	XV, 67 p. : ill. ; 25 cm
Collana	Corpus cultus Cybelae Attidisque (CCCA) ; 7 Études préliminaires aux religions orientales dans l'empire romain
Disciplina	292.211
Soggetti	Cibele - Culto Attis - Culto
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia

2. Record Nr.	UNINA9910151637903321
Autore	Moran Sean
Titolo	Process plant layout // Sean Moran
Pubbl/distr/stampa	Amsterdam : , : BH, , [2017] ©2017
ISBN	0-12-803356-8
Edizione	[Second edition.]
Descrizione fisica	1 online resource (758 pages) : illustrations
Collana	IChemE advancing chemical engineering worldwide
Disciplina	670.4/2
Soggetti	Plant layout
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	<p>Process Plant Layout, Second Edition, explains the methodologies used by professional designers to layout process equipment and pipework, plots, plants, sites, and their corresponding environmental features in a safe, economical way. It is supported with tables of separation distances, rules of thumb, and codes of practice and standards. The book includes more than seventy-five case studies on what can go wrong when layout is not properly considered. Sean Moran has thoroughly rewritten and re-illustrated this book to reflect advances in technology and best practices, for example, changes in how designers balance layout density with cost, operability, and safety considerations. The content covers the 'why' underlying process design company guidelines, providing a firm foundation for career growth for process design engineers. It is ideal for process plant designers in contracting, consultancy, and for operating companies at all stages of their careers, and is also of importance for operations and maintenance staff involved with a new build, guiding them through plot plan reviews. Based on interviews with over 200 professional process plant designers Explains multiple plant layout methodologies used by professional process engineers, piping engineers, and process architects Includes advice on how to choose and use the latest CAD tools for plant layout Ensures that all methodologies integrate to comply with worldwide risk management legislation</p>
