

1. Record Nr.	UNISALENTO991003214079707536
Titolo	Wave energy conversion [e-book] / Engineering Committee on Oceanic Resources Working Group on Wave Energy Conversion
Pubbl/distr/stampa	Amsterdam ; Boston : Elsevier, 2003
ISBN	9780080442129 0080442129
Descrizione fisica	xv, 187 p. : ill., maps ; cm
Collana	Elsevier ocean engineering book series ; v. 6
Altri autori (Enti)	Engineering Committee on Oceanic Resources.Working Group on Wave Energy Conversionauthor
Disciplina	621.31/2134
Soggetti	Ocean wave power Ocean waves Electronic books.
Lingua di pubblicazione	Inglese
Formato	Risorsa elettronica
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references (p. 135-154) and index
Sommario/riassunto	Wave energy, together with other renewable energy resources is expected to provide a small but significant proportion of future energy requirements without adding to pollution and global warming. This practical and concise reference considers alternative application methods, explains the concepts behind wave energy conversion and investigates wave power activities across the globe. Explores the potential of using the power generated by waves as a natural energy resource Considers the power transfer systems needed to do this, and looks at the environmental impacts
