

1. Record Nr.	UNISALENTO991003227059707536
Autore	Smith, Peter
Titolo	Piping materials [e-book] : selection and applications / by Peter Smith
Pubbl/distr/stampa	Amsterdam ; Boston : Elsevier, c2005
ISBN	9780750677431 0750677430
Descrizione fisica	ix, 345 p. : ill. ; 24 cm
Disciplina	621.8672
Soggetti	Pipe - Materials Electronic books.
Lingua di pubblicazione	Inglese
Formato	Risorsa elettronica
Livello bibliografico	Monografia
Note generali	Includes index
Nota di contenuto	Foreword; Introduction; The role of a Piping Specification Engineer; Industry Codes; Materials of Construction; Piping Components; Methods of jointing; Bolts & Gaskets; Valves; Glossaries
Sommario/riassunto	The only book of its kind on the market, this book is the companion to our Valve Selection Handbook, by the same author. Together, these two books form the most comprehensive work on piping and valves ever written for the process industries. This book covers the entire piping process, including the selection of piping materials according to the job, the application of the materials and fitting, trouble-shooting techniques for corrosion control, inspections for OSHA regulations, and even the warehousing, distributing, and ordering of materials. There are books on materials, fitting, OSHA regulations, and so on, but this is the only "one stop shopping" source for the piping engineer on piping materials. - Provides a "one stop shopping" source for the piping engineer on piping materials - Covers the entire piping process. - Designed as an easy-to-access guide
