

1. Record Nr.	UNISALENTO991003242099707536
Autore	Rosato, Dominick V.
Titolo	Plastic product material and process selection handbook [e-book] / Dominick V. Rosato, Donald V. Rosato and Matthew V. Rosato
Pubbl/distr/stampa	Kidlington, Oxford, UK ; New York, USA : Elsevier, c2004
ISBN	9781856174312 185617431X
Descrizione fisica	xxxiv, 618 p. : ill. ; 25 cm
Altri autori (Persone)	Rosato, Donald V. Rosato, Matthew V.
Disciplina	668.4
Soggetti	Plastics - Handbooks, manuals, etc Engineering design - Handbooks, manuals, etc Electronic books.
Lingua di pubblicazione	Inglese
Formato	Risorsa elettronica
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references (p. [576]-595) and index
Nota di contenuto	Introduction, Plastic Property, Fabricating Product, Injection Molding, Extrusion, Blow Molding, Thermoforming, Foaming, Calendering, Coating, Casting, Reaction Injection Molding, Rotational Molding, Compression Molding, Reinforced Plastics, Other Process, Mold and Die Tooling, Auxiliary Equipment; Summary
Sommario/riassunto	This book is for people involved in working with plastic material and plastic fabricating processes. The information and data in this book are provided as a comparative guide to help in understanding the performance of plastics and in making the decisions that must be made when developing a logical approach to fabricating plastic products to meet performance requirements at the lowest costs. It is formatted to allow for easy reader access and this care has been translated into the individual chapter constructions and index. This book makes very clear the behaviour of the 35,000 different plastics with the different behaviours of the hundreds of processes. Products reviewed range from toys to medical devices, to cars, to boats, to underwater devices, containers, springs, pipes, aircraft and spacecraft. The reader's product to be designed and/or fabricated can be directly or indirectly related to plastic materials, fabricating processes and/or product design reviews

in this book. \*Essential for people involved in working with plastic material and plastic fabricating processes \*Will help readers understand the performance of plastics \*Helps readers to make decisions which meet performance requirements and to keep costs low
