1.	Record Nr.	UNISALENTO991003244219707536
	Titolo	Database and data communication network systems [electronic resource] : techniques and applications / edited by Cornelius T. Leondes.
	Pubbl/distr/stampa	Amsterdam ; Boston : Academic Press, c2002
	ISBN	9780124438958 0124438954
	Descrizione fisica	3 v. : ill. ; 27 cm.
	Altri autori (Persone)	Leondes, Cornelius T.
	Disciplina	005.75/8
	Soggetti	Distributed databases Computer networks Bases de données - Gestion Données - Transmission Electronic books.
	Lingua di pubblicazione	Inglese
	Formato	Risorsa elettronica
	Livello bibliografico	Monografia
	Nota di bibliografia	Includes bibliographical references and index.
	Sommario/riassunto	Database and Data Communication Network Systems examines the utilization of the Internet and Local Area/Wide Area Networks in all areas of human endeavor. This three-volume set covers, among other topics, database systems, data compression, database architecture, data acquisition, asynchronous transfer mode (ATM) and the practical application of these technologies. The international collection of contributors was culled from exhaustive research of over 100,000 related archival and technical journals. This reference will be indispensable to engineering and computer science libraries, research libraries, and telecommunications, networking, and computer companies. It covers a diverse array of topics, including: * Techniques in emerging database system architectures * Techniques and applications in data mining * Object-oriented database systems * Data acquisition on the WWW during heavy client/server traffic periods * Information exploration on the WWW * Education and training in multimedia database systems * Data structure techniques in rapid

prototyping and manufacturing * Wireless ATM in data networks for mobile systems * Applications in corporate finance * Scientific data visualization * Data compression and information retrieval * Techniques in medical systems, intensive care units.
