Sommario/riassunto	This volume constitutes the refereed proceedings of the Third European Conference, ServiceWave 2010, held in Ghent, Belgium, in December 2010. The 15 revised full papers presented were carefully reviewed and selected from 49 submissions. They cover a broad range of subjects related to service-oriented architectures and the underlying cloud infrastructure and are organized in topical sections on cloud

computing, service adaptation and identification, infrastructures, applications and mashups, and engineering of service-oriented applications. In addition to the scientific track, 24 extended abstracts of demonstrations covering a wide spectrum of technology and application domains were accepted out of 31 submissions.
