

1. Record Nr.	UNISALENTO991003586369707536
Autore	Gustafsson, Bertil
Titolo	High order difference methods for time dependent PDE / Bertil Gustafsson
Pubbl/distr/stampa	Berlin : Springer, c2008
ISBN	9783540749929 3540749926
Descrizione fisica	xiii, 334 p. : ill. ; 24 cm
Collana	Springer series in computational mathematics, 0179-3632 ; 38
Classificazione	AMS 65M06 LC QA377.G88
Soggetti	Differential equations, Partial - Numerical solutions Finite differences
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references (p. 325-330)

2. Record Nr.	UNINA9910557443003321
Autore	Mashamba-Thompson Tivani
Titolo	Implementation and Scale Up of Point of Care (POC) Diagnostics in Resource-Limited Settings
Pubbl/distr/stampa	Basel, Switzerland, : MDPI - Multidisciplinary Digital Publishing Institute, 2020
Descrizione fisica	1 online resource (154 p.)
Soggetti	Humanities Social interaction
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>Scale up and implementation of new point-of-care (POC) diagnostics is a global health priority to enable the adoption of new evidence-based POC diagnostics and to replicate and extend the reach of POC diagnostics. Global private and public sector agencies have significantly increased their investment in the development of POC diagnostics to meet the unmet needs of patients in resource-limited settings, particularly disease burdened settings with limited access to laboratory infrastructure. However, previous research has demonstrated that the availability of health technologies in these settings does not always guarantee patient-centered outcomes. The applicability, effectiveness and sustainability of diagnostic technologies is affected by the involvement of all stakeholders during planning and implementation, which must be relevant to each specific context and sensitive to local culture. Factors such as infrastructure, resources, values and characteristics of participants can influence the implementation, scalability and sustainability of health interventions such as POC diagnostics. This book, "Implementation and Scale up of Point of Care (POC) Diagnostics in Resource-Limited Settings", presents literature reviews and primary research studies focusing on the implementation and scale up of POC diagnostics in resource-limited settings.</p>
