	Titolo	Das Blindspielen : eine schachpsychologisch-historische Skizze nebst einer Auswahl ohne Ansicht des Brettes gespielter Partien / herausgegeben von J. Mieses
	Pubbl/distr/stampa	Leipzig : Hedewig, 1918
	Descrizione fisica	43 p. ; 22 cm
	Altri autori (Persone)	Mieses, Jacques
	Disciplina	794.1
	Soggetti	Scacchi
	Lingua di pubblicazione	Tedesco
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
2.	Record Nr.	UNINA9910299297403321
	Autore	Li Guoliang
	Titolo	Crowdsourced Data Management : Hybrid Machine-Human Computing / / by Guoliang Li, Jiannan Wang, Yudian Zheng, Ju Fan, Michael J. Franklin
	Pubbl/distr/stampa	Singapore : , : Springer Singapore : , : Imprint : Springer, , 2018
	ISBN	981-10-7847-5
	Edizione	[1st ed. 2018.]
	Descrizione fisica	1 online resource (169 pages)
	Disciplina	658.4038
	Soggetti	Big data Database management Computers, Special purpose Data mining Mobile computing Big Data Database Management Special Purpose and Application-Based Systems Data Mining and Knowledge Discovery Mobile Computing
	Lingua di pubblicazione	Inglese

Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	1. Introduction -- 2. Crowdsourcing Background. 3. Quality Control -- 4. Cost Control -- 5. Latency Control -- 6. Crowdsourcing Database Systems and Optimization -- 7. Crowdsourced Operators -- Conclusion.
Sommario/riassunto	This book provides an overview of crowdsourced data management. Covering all aspects including the workflow, algorithms and research potential, it particularly focuses on the latest techniques and recent advances. The authors identify three key aspects in determining the performance of crowdsourced data management: quality control, cost control and latency control. By surveying and synthesizing a wide spectrum of studies on crowdsourced data management, the book outlines important factors that need to be considered to improve crowdsourced data management. It also introduces a practical crowdsourced-database-system design and presents a number of crowdsourced operators. Self-contained and covering theory, algorithms, techniques and applications, it is a valuable reference resource for researchers and students new to crowdsourced data management with a basic knowledge of data structures and databases.
