Note generali	Phileas Fogg, a rich gentleman, joins some members of his private club in a wager that he cannot travel around the world in 80 days. Immediately he prepares for his departure, along with his servant, Passepartout. Little does Fogg know that Inspector Fix, a Scotland Yard detective seeking a bank robber who matches Fogg's description, is hot on their tail.
Sommario/riassunto	Professor Lidenbrock finds a parchment that contains a coded message written by a 16th century island scientist. Thanks to the help of his nephew Axel, he manages to decipher the message and discovers that its author has reached the center of the earth by entering the crater of a volcano extinct for centuries. Thus begins an adventurous journey full of twists.
