Nota di contenuto	Decampment; One: Country of Forgotten Languages; Two: About the Dead; Three: As Broken in the End; Acknowledgments; About the Author; The May Swenson Poetry Award
Sommario/riassunto	Travis Mossotti writes with humor, gravity, and humility about subjects grounded in a world of grit, where the quiet mortality of working folk is weighed. To Mossotti, the love of a bricklayer for his wife is as complex and simple as life itself: "ask him to put into words what that sinking is, / that shudder in his chest, as he notices / the wrinkles gathering at the corners of her mouth." But not a whiff of sentiment enters these poems, for Mossotti has little patience for ideas of the noble or for sympathetic portraits of hard-used saints. His vision is clear, as clear as the memory

2. Record Nr.	UNISALENT0991003795719707536

<b>Sommario/riassunto</b>	On the occasion of the 50th anniversary of the Outer Space Treaty this book gives a first insight into where the next generation considers

room for further improvement of the Outer Space Treaty in order to cope with upcoming aspects such as providing solutions for the emerging commercial, economic, environmental and social questions. At the time of the adoption of the Outer Space Treaty in 1967 the purpose of this treaty was to avoid conflicting military situations in space. However, 50 years later the Outer Space Treaty is in demand to meet the ever increasing space activities and the different actors involved such as the rise of the private sector players.
