

1. Record Nr.	UNISALENTO991003857159707536
Autore	Elze, Reinhard
Titolo	La città in Italia e in Germania nel Medioevo : cultura, istituzioni, vita religiosa / a cura di Reinhard Elze e Gina Fasoli
Pubbl/distr/stampa	Bologna : Il mulino, 1981
Descrizione fisica	333 p., [8] p. di tav. : ill. ; 22 cm.
Collana	Annali dell'Istituto storico italo-germanico. Quaderni ; 8
Altri autori (Persone)	Fasoli, Gina
Disciplina	940.1
Soggetti	Città - Germania Città - Italia
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Atti della settimana di studio 3-8 settembre 1979 tenutasi a Trento.

2. Record Nr.	UNINA9910557498803321
Autore	Semprucci Federica
Titolo	Meiofauna Biodiversity and Ecology
Pubbl/distr/stampa	Basel, Switzerland, : MDPI - Multidisciplinary Digital Publishing Institute, 2020
Descrizione fisica	1 online resource (254 p.)
Soggetti	Biology, life sciences Ecological science, the Biosphere Research and information: general
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Sedimentary habitats cover the vast majority of the ocean floor and constitute the largest ecosystem on Earth. These systems supply fundamental services to human beings, such as food production and nutrient recycling. It is well known that meiofauna are an abundant and ubiquitous component of sediments, even though their biodiversity and importance in marine ecosystem functioning remain to be fully investigated. In this book, the meiofaunal biodiversity trends in marine habitats worldwide are documented, along with the collection of empirical evidence on their role in ecosystem services, such as the production, consumption, and decomposition of organic matter, and energy transfer to higher and lower trophic levels. Meiofaunal activities, like feeding and bioturbation, induce changes in several physico-chemical and biological properties of sediments, and might increase the resilience of the benthic ecosystem processes that are essential for the supply of ecosystem goods and services required by humans. As a key component of marine habitats, the taxonomical and functional aspects of the meiofaunal community are also used for the ecological assessment of the sediments' quality status, providing important information on the anthropogenic impact of benthos.

3. Record Nr.	UNINA9910140523003321
Titolo	The econometrics journal / / Royal Economic Society
