

1. Record Nr.	UNIPARTHENOPE000014729
Autore	Macho-Stadler, Inés
Titolo	An introduction to the economics of information : incentives and contracts / Inés Macho-Stadler, J. David Perez-Castrillo ; translated by Richard Watt
Pubbl/distr/stampa	Oxford : Oxford university press, 1997
ISBN	0-19-877466-4 0-19-877467-2
Descrizione fisica	XIV, 277 p. ; 24 cm
Altri autori (Persone)	Perez-Castrillo, J. David
Disciplina	330.01
Collocazione	026/36
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia

2. Record Nr.	UNISALENTO991003947969707536
Autore	International Scientific School for Young Scientists <4. ; 2018 ; Moscow, Russia>
Titolo	Physical and mathematical modeling of Earth and environment processes (2018) [e-book] : 4th International Scientific School for Young Scientists, Ishlinskii Institute for Problems in Mechanics of Russian Academy of Sciences / V. I. Karev, Dmitry Klimov, Konstantin Pokazeev, editors
ISBN	9783030115333 303011533X 9783030115326
Descrizione fisica	1 online resource (XI, 490 pages)
Collana	Springer proceedings in earth and environmental sciences,. 2524-342X Springer proceedings in earth and environmental sciences, 2524-342X
Altri autori (Persone)	Karev, V. I.editor Klimov, Dmitri Mikhailovicheditor Pokazeev, Konstantineditor
Disciplina	551.1
Soggetti	Geodynamics - Congresses Geodynamics - Mathematical models - Congresses
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This book entitled "Physical and Mathematical Modeling of Earth and Environment Processes" is the result of a collaborative work after the 4th international scientific youth forum held at the IPMech RAS on November 1-3, 2018. The book includes theoretical and experimental studies of processes in the atmosphere, oceans, the lithosphere and their interaction; environmental issues; problems of human impact on the environment; methods of geophysical research. A special focus is given to the extraction of hydrocarbon resources, including unconventional sources. This book also focuses on new approaches to the development of hydrocarbon fields, very important in today's geopolitical conditions. The book presents new results of the experimental and theoretical modeling of deformation, fracture and

filtration processes in the rocks in connection with issues of creating  
scientific fundamentals for new hydrocarbon production technologies
