

1. Record Nr.	UNISALENTO991004056269707536
Autore	Plutarchus
Titolo	Vite parallele, Pericle ; Fabio Massimo / Plutarco ; introduzione [a Pericle] di Philip A. Stadter ; introduzione e note di Anna Santoni ; introduzione [a Fabio Massimo] di Roberto Guerrini ; traduzione e note [a Fabio Massimo] di Anna Santoni ; con il saggio Plutarco biografo / di Ulrich von Wilamowitz- Moellendorff e contributi di Barbara Scardigli e Mario Manfredini
Pubbl/distr/stampa	Milano : Rizzoli, 1991
ISBN	881716772X
Descrizione fisica	412 p. ; 18 cm
Collana	I classici della BUR ; L772
Altri autori (Persone)	Guerrini, Roberto Manfredini, Mario Santoni, Anna Scardigli, Barbara Stadter, Philip A. Wilamowitz-Moellendorff, Ulrich : von
Lingua di pubblicazione	Italiano Greco antico
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Testo greco a fronte

2. Record Nr.	UNINA9910788986003321
Autore	Ogilvie Malcolm Alexander
Titolo	Ducks of Britain and Europe // [by] M. A. Ogilvie ; illustrated by Carol Ogilvie
Pubbl/distr/stampa	Berkhamsted : , : Poyser, , 1975
ISBN	1-4725-9700-1 1-4081-3864-6 1-282-98670-8 9786612986703 1-4081-3862-X
Descrizione fisica	1 online resource (223 p.)
Collana	Poyser monographs
Disciplina	598.4/1
Soggetti	Birds - Europe Ducks - Europe
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cover; Contents; List of colour plates; List of distribution maps; Preface; 1 Introduction and classification; 2 General behaviour and ecology; 3 Identification; 4 Breeding; 5 Distribution and status; 6 Migrations; 7 Exploitation and conservation; References; Index
Sommario/riassunto	"The forty-two species or subspecies of ducks which occur in Europe, including eleven vagrants from North America or Asia, are the subject of this book. Its author is an accepted authority on ducks and geese, and has been a member of the research staff of the Wildfowl Trust at Slimbridge since 1960. Most birdwatchers consider ducks to be especially attractive and interesting birds, and many species of ducks are also the legitimate quarry of wildfowlers. Both groups need to identify the species quickly and accurately, and almost half of the book is devoted to identification, offering a far more detailed account than is to be found in any of the field guides. There are detailed descriptions, species by species, of the adult males and females, immature birds, eclipse males, and downy young - voice, too, is dealt with - and full-colour plates of males and females show the flight patterns, so important for correct species identification. The habits of European

ducks are treated in chapters on behaviour and ecology, breeding biology, distribution and status, and the ever-fascinating topic of migration and navigation. The distribution chapter has maps showing the summer and winter ranges in Europe, North Africa, the Middle East and Central Russia, for 24 species. A final chapter considers the present day threats to ducks and their wetland habitats, and the conservation measures being taken to combat the threats. The colour plates and more than 80 line drawings in the text are by Carol Ogilvie, the author's wife. Jacket illustration by Carol Ogilvie"--Bloomsbury Publishing.
