| Sommario/riassunto | Assessing Student Learning is a standard reference for college faculty and administrators, and the third edition of this highly regarded book continues to offer comprehensive, practical, plainspoken guidance. The third edition adds a stronger emphasis on making assessment useful; greater attention to building a culture in which assessment is used to inform important decisions; an enhanced focus on the many settings of assessment, especially general education and co-curricula; a new emphasis on synthesizing evidence of student learning into an overall picture of an integrated learning experience; new chapters on curriculum design and assessing the hard-to-assess; more thorough information on organizing assessment processes; new frameworks for rubric design and setting standards and targets; and many new resources. Faculty, administrators, new and experienced assessment practitioners, and students in graduate courses on higher education assessment will all find this a valuable addition to their bookshelves. |

Sommario/riassunto

This book analyses China's regional economies in 2017, providing a breakdown of areas such as economic development, public services performance, social governance, and cultural development, and forecasts the outlook of Beijing's development for 2018. The general report overviews the past year's overall performance while the special report focuses particularly on public service performance, social work organization and other specific areas of development. Economic, industrial and cultural developments are analyzed in the Beijing-Tianjin-Hebei region report. This book will be of value to urban planners, sinologists, and those who seek to understand the future of the Chinese capital. Beijing Academy of Social Sciences brings together the research achievements of think tanks for the betterment of decision making at the government level and utilizes the wisdom of researchers to provide solutions to economic and cultural issues that affect the people of China. .
