

1. Record Nr.	UNISANNIOBVEE014565		
Autore	Bembo, Pietro		
Titolo	ÂPetri Bembi card. ÂEpistolarum familiarium, libri 6. Eiusdem, Leonis 10. pont. max. nomine scriptarum, lib. 16		
Pubbl/distr/stampa	Venetiis : [Gualtiero Scoto], 1552 ((Venetiis) : apud Gualterum Scottum, 1552		
Descrizione fisica	2 pt. ([16], 398, [2]; 543, [25] p.) ; 8Â°		
Collocazione	CRNICOLINI XVI 0082.2 DMS.ZANCHINI1.A. 1. GEA 1	0390CRNICOLINI XVI 12 0070	
Lingua di pubblicazione	Latino		
Formato	Materiale a stampa		
Livello bibliografico	Monografia		
Note generali	Colophon della pt. 1.: Venetiis : ex officina Gualteri Scotti, 1552. Mense Maio Marca (V464) sul front. d'insieme Cors. ; rom Segn.: [ast]â,A-2Bâ,; 2A-3Mâ,3Nâ´ Iniziali xil.		

2. Record Nr.	UNINA9910787906303321
Autore	Bar-Tal Meir
Titolo	Advanced UFT 12 for test engineers Cookbook : over 60 practical recipes to help you accomplish automation tasks using UFT 12 and VBScript / / Meir Bar-Tal, Jonathon Lee Wright ; cover image by Faiz F
Pubbl/distr/stampa	Birmingham, England : , : Packt Publishing, , 2014 ©2014
ISBN	1-84968-841-9
Edizione	[1st edition]
Descrizione fisica	1 online resource (272 p.)
Collana	Quick answers to common problems
Disciplina	005.437
Soggetti	Graphical user interfaces (Computer systems)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"Quick answers to common problems"--Cover. Includes index.
Nota di contenuto	Cover; Copyright; Credits; About the Authors; About the Reviewers; www.PacktPub.com; Table of Contents; Preface; Chapter 1: Data-Driven Tests; Introduction; Creating a DataTable parameter; Retrieving data from a DataTable; Storing data in a DataTable; Importing an Excel file to a test; Exporting a DataTable; Parameterizing Test Object properties; Defining test cases using a DataTable; Storing data in the Environment object; Retrieving data from the Environment object; Reading values from an INI file; Using a configuration file to manage test environments Using a global dictionary for fast shared data accessUsing a global dictionary for fast shared code access; Chapter 2: Testing Web Pages; Introduction; Checking if page links are broken; Deleting cookies; Managing multiple browser windows; Handling pop-up dialogs; Downloading a file using XMLHttpRequest; Checking whether a website is up; Uploading a file using FTP; Identifying elements based on anchors; Synchronizing a test with a web page loading; Accessing web elements through DOM; Chapter 3: Testing XML and Database; Introduction; Establishing and closing a database connection Using SQL queries programmaticallyUsing a database checkpoint; Using an XML checkpoint; Chapter 4: Method Overriding; Introduction; Overriding a Test Object method; Registering a method to all classes; Using method overriding to support object subtypes; Adding a new

method to a class; Chapter 5: Object Identification; Introduction; Setting mandatory and assistive properties for a class; Using Descriptive Programming inline; Using the Description object; Using child objects; Using native properties for object identification; Identifying an object based on its parent
Chapter 6: Event and Exception Handling; Introduction; Catching errors inside a function or subroutine; Creating and using a recovery scenario; Using a global dictionary for recovery; Chapter 7: Using Classes; Introduction; Implementing a class; Implementing a simple search class; Implementing a generic Login class; Implementing function pointers; Implementing a generic Iterator; Chapter 8: Utility and Reserved Objects; Introduction; Using global variables (Environment); Customizing mouse operations (DeviceReplay); Managing processes (SystemUtil); Measuring time (MercuryTimers)
Resolving file locations (PathFinder); Loading shared object repositories (RepositoriesCollection); Loading and creating XML documents (XMLUtil); Drawing a rectangle on the screen with Win32 API methods (Extern); Verifying binary file contents (FileCompare); Implementing a custom reserved object; Using remote objects; Utility statements;
Chapter 9: Windows Script Host (WSH); Introduction; Reading a key from the Windows® system registry; Writing a key to the Windows® system registry; Deleting a key from the Windows® system registry; Running a process using the Windows® system shell
Chapter 10: Frameworks

Sommario/riassunto

This advanced cookbook is designed for software testers and engineers with previous automation experience and teaches UFT (QTP) developers advanced programming approaches. Knowledge of software testing and basic coding (with VBScript in particular) and familiarity with programming concepts are prerequisites.
