Sommario/riassunto	Lo scopo della rivista è di stimolare la fertilizzazione incrociata della conoscenza tra scienziati e ingegneri che lavorano nei campi della crescita dei cristalli, dell'ingegneria dei cristalli e dell'applicazione industriale di materiali cristallini e assemblaggi molecolari. La rivista pubblica studi teorici e sperimentali sui fenomeni e sui processi fisici, chimici e biologici legati alla progettazione, crescita e applicazione di materiali cristallini. Sono incoraggiati approcci sinergici provenienti da diverse discipline e tecnologie e che integrano i campi della crescita dei cristalli, dell'ingegneria dei cristalli, delle interazioni intermolecolari e dell'applicazione industriale. Sono evidenziati i contributi che enfatizzano i concetti fondamentali della crescita dei cristalli o dell'assemblaggio molecolare e supportano un'ulteriore comprensione della relazione tra le condizioni di assemblaggio e le proprietà o la funzione risultanti del materiale. La rivista non pubblica rapporti di routine sulle nuove morfologie dei materiali a meno che la morfologia non porti a funzioni o proprietà significativamente migliorate.

Sommario/riassunto

This book covers new ground on the diffusion and transmission of geographical knowledge that occurred at critical junctures in the long history of the Silk Road. Much of twentieth-century scholarship on the Silk Road examined the ancient archaeological objects and medieval historical records found within each cultural area, while the consequences of long-distance interaction across Eurasia remained poorly studied. Here ample attention is given to the journeys that notions and objects undertook to transmit spatial values to other civilizations. In retracing the steps of four major circuits right across the many civilizations that shared the Silk Road, *The Journey of Maps and Images on the Silk Road* traces the ways in which maps and images surmounted spatial, historical and cultural divisions.

Sommario/riassunto	Women in Executive Power studies the participation of women in the political executive around the world-notably in cabinet positions as

ministers and sub-ministers and as heads of government and state. Providing multiple case studies in each chapter, the book provides regional overviews of nine different world regions covering those with the fewest to the most women in executive power.
