Sommario/riassunto	Are the dialects of England disappearing in the wake of globalisation and 'Estuary English', or are geographical differences as strong as ever? Joan Beal looks at recent research into regional variation in England, discusses the evidence for 'dialect levelling' and argues that, despite this, features of dialect are still clear markers of regional and local identity. Chapters outlining the main regional differences in accent, dialect grammar and dialect vocabulary are followed by discussions of research into geographical diffusion, levelling, issues of identity and stereotypes. Each chapter is
