Nota di contenuto	Book Cover; Title01; Copyright01; Title02; Copyright02; Contents; Acknowledgements; Introduction: philosophy, theory and the 'contest of faculties'; 1 Narrative theory or theory-as-narrative: the politics of 'post-modern' reason; 2 Sense, reference and logic: a critique of post-structuralist theory; 3 Some versions of rhetoric: Empson and de Man; 4 Transcendent fictions: imaginary discourse in Descartes and Husserl; 5 Aesthetics and politics: reading Roger Scruton; 6 Philosophy as a kind of narrative: Rorty on post-modern liberal culture; 7 Suspended sentences: textual theory and the Law 8 On not going relativist (where it counts): deconstruction and 'Convention T' 9 Conclusion; Notes; Index
Sommario/riassunto	This Routledge Revival, first published in 1985, gives detailed attention to the bearing of literary theory on questions of truth, meaning and reference. On the one hand, deconstruction brings a vigilant awareness of the figural and narrative tropes that make up the discourse of philosophic reason. On the other it insists that argumentative rigour cannot be divorced from the kind of close reading that has come to

characterize literary theory in its more advanced or speculative forms.
This present-day 'contest of faculties' has large implications for
philosophers and critics, many o

Sommario/riassunto

"The Complete Archaeology of Greece covers the incredible richness and variety of Greek culture and its central role in our understanding of European civilization, from the Palaeolithic era of 400,000 years ago to the early modern period. In a single volume, the field's traditional focus on art and architecture has been combined with a rigorous overview of the latest archaeological evidence forming a truly comprehensive work

on Greek civilization. A unique single-volume exploration of the extraordinary development of human society in Greece from the earliest human traces up till the early 20th century AD Provides 22 chapters and an introduction chronologically surveying the phases of Greek culture, with over 200 illustrations Features over 200 images of art, architecture, and ancient texts, and integrates new archaeological discoveries for a more detailed picture of the Greece past, its landscape, and its people Explains how scientific advances in archaeology have provided a broader perspective on Greek prehistory and history Offers extensive notes on the text, available online, including additional details and references for the serious researcher and amateur"--
