Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Cognitive development among young children in low-income countries -- The influence of economic crisis on early childhood development, a review of pathways and measured impact -- Conflicts, epidemics and orphanhood : the impact of extreme events on the health and educational achievements of children -- Promoting equity through early child development interventions for children 0-3 years.
Sommario/riassunto	Education is often seen as a fundamental means to improve economic prospects for individuals from low income settings. However, even with increased emphasis on basic education for all, many individuals fail to achieve basic skills to succeed in life. The book presents evidence that one core reason is that by the time a child is old enough to attend school, there is already a wide disparity in cognitive skills and in emotional and behavioral development among children from households of different socioeconomic backgrounds. Low levels of cognitive development in early childhood strongly correlat
