

1. Record Nr.	UNINA9910438025503321
Titolo	Pathology of the vulva and vagina / / Laurence Brown, editor
Pubbl/distr/stampa	London, : Springer, 2013
ISBN	1-283-69688-6 0-85729-757-0
Edizione	[1st ed. 2013.]
Descrizione fisica	1 online resource (292 p.)
Collana	Essentials of diagnostic gynecological pathology
Altri autori (Persone)	BrownLaurence
Disciplina	618.1 618.1507 618.16
Soggetti	Vulva - Diseases Vagina - Diseases Vulva - Cancer Vagina - Cancer
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Development and Anatomy; Disorders of Development -- Vulvovaginal Infections -- Non-Infectious Dermatoses of the Vulva -- Cysts, Non-Neoplastic Glandular Lesions, and Glandular Neoplasms of the Vulva and Vagina -- Melanoctytic Lesions of the Vulva and Vagina -- Precursors of Vulvovaginal Squamous Cell Carcinoma -- Squamous Cell Carcinoma and Basal Cell Carcinoma of the Vulva and Squamous Cell Carcinoma of the Vagina -- Vulvovaginal Mesenchymal Lesions -- Skin Adnexal Tumors -- Appendix 1: Surgical Cut-up of Specimens -- Appendix 2: Reporting Proforma for Vulval Cancer Resection Specimens -- Staging of Vulval Carcinoma.
Sommario/riassunto	Doctors and the general public are increasingly recognising diseases of the vulva and vagina as a cause of sexual dysfunction, morbidity and death, yet the wide but sometimes rare range of conditions involving this area are poorly represented in most textbooks of pathology. As the first volume in the Essentials of Diagnostic Gynecological Pathology series sponsored by the British Association of Gynecological Pathologists, Pathology of the Vulva and Vagina is one of the very few dealing wholly with this subject. Pathology of the Vulva and Vagina

introduces the topic with a stylishly illustrated description of the embryology and development which is fundamental to understanding the pathogenesis and symptomatology. Subsequent chapters cover infections and non-infectious dermatoses, specifying those that can predispose to cancer. The precancerous conditions of vulval intraepithelial neoplasia, melanocytic proliferations and extra-mammary Paget's disease are integrated respectively with accounts of human papilloma virus, malignant melanoma and recent awareness of ano-genital mammary-like glands. Advances in the recognition of potentially confusing benign conditions, prognosis and staging update the pathology of squamous and adenocarcinoma in these organs. The difficulties of sentinel node biopsy are explored and a comprehensive chapter clearly highlights the difficult differential diagnosis of mesenchymal lesions. As most histopathology departments receive many gynecological specimens, Pathology of the Vulva and Vagina has been written to be useful diagnostically to general as well as specialist gynecological histopathologists and pathologists in training. Gynecologists, oncologists, dermatologists, genitourinary physicians and cancer nurse specialists will find expert insights here that will help in treatment and counselling of their patients. .

2. Record Nr.	UNISANNIOPUV0034622	
Titolo	1: Il difficile equilibrio agricolo-manifatturiero, 1750-1814	
Pubbl/distr/stampa	Como, : Camera di commercio, industria e agricoltura, c1987	
Descrizione fisica	594 p. ; 29 cm.	
Disciplina	330.94523	
Collocazione	POZZO LIB.F. ASSANTE	673
Lingua di pubblicazione	Italiano	
Formato	Materiale a stampa	
Livello bibliografico	Monografia
