	Sommario/riassunto	Mit Blick auf die berufliche Orientierung Jugendlicher bietet dieses Open-Access-Buch eine systematische, theoriegeleitete und empirische Analyse heterogener Unterstützungsbedarfe und ihrer vielfältigen Ursachen. Die Bedeutung regelmäßiger Bedarfs- und Entwicklungsdiagnostik sowie einer systematischen Verzahnung einzelner Elemente beruflicher Orientierung im schulischen Kontext wird eindrucksvoll anhand heterogener und gleichzeitig diskontinuierlicher Entwicklungsverläufe verdeutlicht. Die Autorin weist zudem auf Konsequenzen für rahmengebende Berufsorientierungsprogramme, die Konzeption berufsorientierender Maßnahmen sowie für die Planung und Umsetzung schulinterner Konzepte hin.

Sommario/riassunto	This volume of essays explores the interaction of Church and town in the medieval period in England. Two major themes structure the book. In the first part the authors explore the social and economic dimensions of the interaction; in the second part the emphasis moves to the spaces and built forms of towns and their church buildings. The primary emphasis of the essays is upon the urban activities of the medieval Church as a set of institutions: parish, diocese, monastery, cathedral. In these various institutional roles the Church did much to shape both the origin and the development of the medieval town. In exploring themes of topography, marketing and law the authors show that the relationship of Church and town could be both mutually beneficial and a source of conflict.
