Descrizione fisica	1 online resource (29 pages) : illustrations
Disciplina	232.963
Soggetti	Crosses
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	"O Cross of Christ is an original, new prayer composed by Pope Francis himself and recited by him on the occasion of Good Friday 2016. It guides all who pray it to recognize Jesus' cross in some of the most distressing circumstances of today's world--modern-day martyrs, victims of war, unfaithful ministers, and more--as well as in the lives of people who do great good--consecrated men and women, families, volunteers, and others. Presented as a litany, with responses that make it ideal for group use, this little booklet is beautifully illustrated with original art by the American artist Deborah Luke. The result is a prayer resource that promises to serve as a profound source of spiritual nourishment for Christians for years to come. Recommended for personal, family, group, or parish-wide prayer."--Publisher description.

Sommario/riassunto	This open access book provides a comprehensive overview of the health inequities and human rights issues faced by sex workers globally across diverse contexts, and outlines evidence-based strategies and best practices. Sex workers face severe health and social inequities,

largely as the result of structural factors including punitive and criminalized legal environments, stigma, and social and economic exclusion and marginalization. Although previous work has largely emphasized an elevated burden and gaps in HIV and sexually transmitted infection (STI) services in sex work, less attention has been paid to the broader health and human rights concerns faced by sex workers. This contributed volume addresses this gap. The chapters feature a variety of perspectives including academic, community, implementing partners, and government to synthesize research evidence as well as lessons learned from local-level experiences across different regions, and are organized under three parts: Burden of health and human rights inequities faced by sex workers globally, including infectious diseases (e.g., HIV, STIs), violence, sexual and reproductive health, and drug use Structural determinants of health and human rights, including legislation, law enforcement, community engagement, intersectoral collaboration, stigma, barriers to health access, im/migration issues, and occupational safety and health Evidence-based services and best practices at various levels ranging from individual and community to policy-level interventions to identify best practices and avenues for future research and interventions Sex Work, Health, and Human Rights is an essential resource for researchers, policy-makers, governments, implementing partners, international organizations and community-based organizations involved in research, policies, or programs related to sex work, public health, social justice, gender-based violence, women's health and harm reduction.
