Epistemic Modality Functional properties and the Italian system -- Editorial page -- Title page -- Copyright page -- Table of contents -- ABBREVIATIONS -- INTRODUCTION -- 1. The theoretical approach -- 2. The structure of the book -- 3. Data -- I. THE NOTIONAL CATEGORY OF EPISTEMIC MODALITY -- 1. Introductory remarks -- 2. The boundaries of (epistemic) modality -- 2.1 Deontic and epistemic modality -- 2.2 Mood and modality -- 2.3 Illocution and modality -- 2.4 Reality status and modality -- 2.5 Evidentiality and modality -- 3. Modality as a non-designative category -- 4. Modality and subjectivity -- 4.1 Performativity -- 4.2 Meta-propositionality -- 4.3 Genuine Epistemicity -- 5. A working definition -- II. A TYPOLOGICAL CLASSIFICATION OF EPISTEMIC SYSTEMS -- 1. Parameters -- 2. Specific vs. parasitic markers -- 3. One form vs. degrees of certainty -- 4. Genuine epistemicity vs. inferential evidentiality -- 5. Reportive, modalized and complex evidential systems -- 6. Degrees of performativity -- 7. Summary -- III. EPISTEMIC MODALITY IN ITALIAN -- 1. Introductory remarks -- 2. Epistemic forms -- 3. Grammaticality scales -- 4. Grammaticalized epistemic forms -- 5. Summary -- IV. SEMANTIC OPPOSITIONS -- 1. Introductory remarks -- 2. Degrees of certainty -- 2.1. DEVE "must" vs. PUÒ "can -- 2.2. Degrees of certainty and inference conditions. DEVE "must" vs. DOVREBBE "should -- 3. The epistemic-deontic axis -- 3.1 The asymmetry between dovere "must" and potere "can -- 3.2 PUÒ "can" vs. POTREBBE "could -- 4. Evidentiality and epistemic modality. The opposition between modals and epistemic future -- 4.1 The evidential nature of DEVE "must -- 4.2 The evidential nature of the other modals -- 4.2.1 DOVREBBE "Should -- 4.2.2 PUÒ "can" and POTREBBE "could -- 4.3 The epistemic nature of the future -- 5. Summary.

V. A TYPOLOGICAL CHARACTERIZATION OF ITALIAN EPISTEMIC MODALITY -- 1. Introductory remarks -- 2. Parasitic forms -- 3. Three degrees of certainty -- 4. The distinction between genuine epistemicity and inferential evidentiality -- 5. A complex evidential system -- 6. Low performativity -- 7. Summary -- VI. INFLECTIONAL AND DISTRIBUTIONAL CONSTRAINTS. THE (LOW) PERFORMATIVITY OF ITALIAN EPISTEMIC MODALITY -- 1. Introductory Remarks -- 2. Constraints on the tense. The (low) performativity of Italian epistemic forms -- 2.1 Past tense -- 2.2 Future tense -- 2.3 Low performativity and the evidential nature of modals -- 3. Constraints on the personal inflection. Speech situation and epistemic control -- 3.1 DEVE, PUÒ, and the epistemic future -- 3.2 DOVREBBE and POTREBBE -- 4. Constraints on the distribution -- 4.1 Conditional constructions -- 4.2 Interrogative contexts -- 5. Summary -- VII. ASPECTUAL CONSTRAINTS ON THE PROPOSITIONAL CONTENT -- 1. Introductory remarks -- 2. Tools of analysis. Actional class and aspect -- 3. Stativity of the propositional content -- 4. The aspect of the propositional content -- 4.1 Progressives -- 4.2. Habituals -- 4.3 Perfects -- 5. Conclusions -- 5.1. Asymmetries among epistemic forms -- 5.2. The incompleteness of the propositional content -- 5.3 A topological representation of aspectual Incompleteness -- VIII. THE INCOMPLETENESS OF THE PROPOSITIONAL CONTENT AND THE METAPROPOSITIONALITY OF EPISTEMIC MODALITY -- 1. Introductory remarks -- 2. Semantic projections on complements -- 3. Incompleteness as an index of metapropositionality. A hypothesis -- 4. Linguistic relevance of the distinction between predication and propositions -- 5. The incompleteness of Italian propositional complements -- 5.1 Propositional predicates -- 5.2 The incompleteness of the infinitives governed by sapere.

5.3 The incompleteness of the infinitives governed by *dire* -- 6. The aspectual completeness of predication complements -- 6.1 Predication predicates -- 6.2 The aspectual completeness of the infinitives governed by predicates of perception and practical manipulation -- 6.3 Refinements: the destativization of some predication complements -- 7. Incompleteness as an index of simultaneity with the ongoing speech process -- 7.1 The self-referentiality of linguistic tense. The enunciation process and other linguistic temporal references -- 7.2 The semiotic meaning of incompleteness -- 8. Typological validity of the relation between incompleteness and propositionality -- 9. Summary -- IX. A DIACHRONIC HYPOTHESIS -- 1. Introductory remarks -- 2. Background -- 2.1 The semantic relation between the deontic and the epistemic meaning of modals -- 2.2 The semantic relation between the temporal and the epistemic meaning of the future -- 2.3 Diachronic evidence -- 3. A new reconstructivist hypothesis -- 4. Summary -- CONCLUSIONS -- NOTES -- INTRODUCTION -- CHAPTER 2 -- CHAPTER 3 -- CHAPTER 4 -- CHAPTER 5 -- CHAPTER 6 -- CHAPTER 8 -- CHAPTER 9 -- BIBLIOGRAPHY -- SUBJECT INDEX.

---

### Sommario/riassunto

This volume offers an original theoretical and methodological approach to the hotly debated issue of epistemic modality. The analysis is conducted in a rigorous typological frame developed after a careful consideration of a wealth of cross-linguistic data, and focuses on Italian, a language often disregarded in comparative analyses. The complexity of the Italian epistemic system provides relevant information that will undoubtedly foster a better understanding of the topic. A new definition of epistemic modality is proposed on a functional basis and the structure of the Italian epistemic system.

Nota di contenuto	Chapter 1 Introduction -- Chapter 2 Quantamental Analysis -- Chapter 3 Nonlinear Factor Effects on Returns -- Chapter 4 Nonlinear Alpha Modeling -- Chapter 5 Tail Portfolios -- Chapter 6 Nonlinear Investing: Japan Stock Selection Strategy -- Chapter 7 Nonlinear Investing: Currency -- Chapter 9 Nonlinear Investing: Commodity -- Index.
Sommario/riassunto	This book focuses on nonlinear investing with a quantamental approach. Pricing relationships in financial markets are often nonlinear, which raises serious questions for portfolio management: How can we characterize nonlinear patterns in asset pricing? Why do such nonlinear patterns occur and in what contexts? How can we know whether such relationships will persist in the future? And how much is the value added by a nonlinear over a linear model? These questions cannot be answered by piecing together fundamental prospects based on personal experience and preference, which can be biased, or by

torturing the data to make it confess whatever we want (particularly big data, which allows more freedom for data mining). Rather, nonlinear investing should rely on both fundamental insights and quantitative analysis: the former ensures that similar nonlinear patterns will occur in the future and the latter validates the nonlinear pattern with historical data. In this way, quant marries fundamental: a quantamental approach! The book provides a systematic guide to conducting nonlinear investing through quantamental analysis. The author demonstrates how nonlinear investment strategies, achieving both depth and breadth, add significant value to portfolio performance for different asset classes. The primary audience for this book is senior professional investors and quant/fundamental investment shops who look for new ideas to enhance their existing products or develop new products. The book will also be helpful to finance faculty and graduate students who are interested in frontier industry practices.
