| Sommario/riassunto | This manual documents the outcome of the EC sponsored project RACE Integrity Primitives Evaluation (R1040), RIPE. This project is a huge joint |

350 man-month project conducted by 16 leading European security experts. This book offers expert advice to professionals seeking to secure information systems by applying up-to-date cryptographic techniques. The core of this volume is a detailed integrity primitives portfolio recommendation. Among the issues addressed are security services, integrity mechanisms, data origin authentication, entity authentication, access control, data integrity, non-repudiation, signatures, and key exchange.

Titolo	IEEE recommended practice for learning technology : IMS content packaging information model (CP) version 1.2--mapping to the conceptual model for resource aggregation
Pubbl/distr/stampa	New York : , : IEEE, , 2016
ISBN	1-5044-2134-5
Descrizione fisica	1 online resource (70 pages)
Disciplina	004
Soggetti	Educational technology - Standards Information technology - Standards
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Specified in this recommended practice is how the elements and attributes defined in the IMS Content Packaging Information Model (CP) Version 1.2 relate to the components of the conceptual model for resource aggregation defined in IEEE Std 1484.13.1-2012. Scope: This recommended practice specifies how the elements and attributes defined in the IMS Content Packaging Information Model (CP) Version 1.2 relate to the components of the conceptual model for resource aggregation defined in IEEE Std 1484.13.1™-2012. Purpose: The mapping specified in this recommended practice may be used with the mappings of other resource aggregation formats to achieve interoperability among the formats via the conceptual model defined in
