| Sommario/riassunto | This standard covers basic provisions for safeguarding of persons from hazards arising from the installation, operation, or maintenance of 1. conductors and equipment in electric supply stations, and 2. overhead and underground electric supply and communication lines. It also includes work rules for the construction, maintenance, and operation of |

electric supply and communication lines and equipment. The standard is applicable to the systems and equipment operated by utilities, or similar systems and equipment, of an industrial establishment or complex under the control of qualified persons. This standard consists of the introduction, definitions, grounding rules, list of referenced and bibliographic documents, and Parts 1, 2, 3, and 4 of the 2007 Edition of the National Electrical Safety Code.
