Sommario/riassunto	Dieser Band erscheint zu Ehren von Joachim Jens Hesse, einem Wissenschaftler, dessen facettenreiches Oeuvre als ein Versuch verstanden werden kann, in mehreren Hinsichten "grenzüberschreitend" zu wirken. Dazu zählen vor allem die Förderung interdisziplinärer Zusammenarbeit zwischen Rechts-, Wirtschafts- und Sozialwissenschaften, die Analyse des öffentlichen Sektors im internationalen und interkulturellen Vergleich sowie die Überwindung der "Kluft" zwischen Staatswissenschaften und Staatspraxis. Der vorliegende Band befasst sich mit einem Gegenstand, der die benannten Dimensionen in exemplarischer Weise erfüllt: dem Wechselverhältnis von nationalstaatlichen Verfassungen und ihrer internationalen Umwelt. In diesem Zusammenhang hat die fortschreitende Transnationalisierung nicht nur dazu beigetragen, die ehemals klaren Grenzen zwischen den beiden Bereichen zu verwischen, sondern auch wachsendes Interesse und zunehmenden Bedarf an vergleichenden, interdisziplinären und anwendungsbezogenen Verfassungsanalysen hervorgerufen. This book is dedicated to Joachim Jens Hesse, a scholar whose multi-faceted work may be characterised as an attempt at "crossing borders" in several respects. These primarily include fostering interdisciplinary cooperation between law, economics and social sciences, analysing public sector developments in an international and intercultural perspective as well as bridging the "gap" between academia and practical politics. Therefore, the volume deals with a subject that covers these features in an exemplary manner: the interrelationship between nation-state constitutions and their international environments. In this context, ongoing processes of transnationalisation have not only

contributed to blurring the formerly clear-cut boundaries between these two domains, but also provoked a growing interest in and demand for comparative, interdisciplinary and applied research on constitutional developments. The authors of this Festschrift include eminent lawyers, economists and political scientists from Europe, the United States and East Asia who worked together with Joachim Jens Hesse in various contexts.
